NO. 172

[No. 1285.]

SUPREME COURT OF NEVADA.

The State of Nevada, Respondent
vs.
One-Arm Jim, Appellant.

(By Hawley, J.)

Appellant was convicted of murder in the first degree.

It does not appear from the transcript on appeal that any exceptions were taken during the trial of the case.

No appeal has been taken in this court for either party, and it is evident the appeal is without merit. It presents no question for our consideration, and may have been taken simply for delay. In a letter presented to the Board of Pardons the attorney who defended appellant in the District Court said, "I apprehend that the time of sentence of execution will give time to apply for commutation. If commutation will dismiss appeal, as there are no errors."

The defendant appealed from a affirmed and the District Court is directed to designate a day for carrying its sentence into execution.

We concur,
HAWLEY, J.

The Bean Ideal of a Family Medicine.

A remedy which promptly and completely relieves ailments of such common occurrence as indigestion, constipation, biliousness and disorders of malarial type—assuredly the bean ideal of a family medicine. Such is Heseltine's Stockman Bitters, which is not only capable of remedying these complaints, but also of eradicating a tendency to kidney troubles, rheumatism and premature decadence of stamina. Taking it "all around," as the phrase is, there is probably nothing more useful or agreeable and agreeable a household panacea as the Bitters. Not is it less highly esteemed by the medical profession than by the family physician. The following testimonials from professional sources of irreverable authenticity evince its merits. The demand for it abounds, no less than in the demand for the bean ideal in increasing, time and experience of its beneficial effects confirming the high opinion originally formed of it.

A Luxury and Necessity.
For rich and poor who wish to enjoy good health, and who do not wish to resort to bitter nauseous liver medicines and cathartics, is the concentrated California liquid fruit remedy, Syrup of Figs. 50c. and \$1 bottles for sale by Wm. Pinninger, Reno, Nevada.

An Absolute Cure.

The ORIGINAL ABIEITINE OINTMENT is only put up in large two-ounce tins boxes, and is an absolute cure for old sores, burns, wounds, chapped hands, and skin eruptions. We possess all kinds of ointments for the skin. For the ORIGINAL ABIEITINE OINTMENT. Sold by Osburn & Shoemaker at 25 cents per box—by mail \$10.

The Only Perfect Remedy.
For habitual constipation, dyspepsia and kindred ills, is the famous California liquid fruit remedy, Syrup of Figs. It strengthens as well as cleanses the system; it is easily taken and perfectly harmless. Large bottles for sale by Wm. Pinninger, Reno, Nevada.

Thousands of Dollars.
Are spent every year by the people of this State for worthless medicines for the cure of throat and lung diseases, when we know that if they would only invest \$1 in ABIEITINE, the new California discovery, consumption and kindred complaints, they would in this pleasant way find relief. It is recommended by ministers, physicians and public speakers in the Golden State. Sold by Druggists by mail & burn & Shoemaker, Reno, Nevada, at \$1 a bottle. Three for \$2.50.

The most stubborn cases of asthma will speedily subside to CALIFORNIA CAT-CURE. Six months' treatment for \$1. By mail \$10.

When baby was sick, we gave her Castoria, when she was a child she cried for Castoria, when she became Miss, she clung to Castoria, when she had children, she gave them Castoria.

Syrup of Figs.
Manufactured only by the California Fig Syrup Co., San Francisco, Cal., is nature's own true laxative. This pleasant California liquid fruit remedy may be had of Wm. Pinninger, Reno, Nevada. Large bottles at 50 cents or \$1. It is the most pleasant, prompt and effective remedy known to cleanse the system; to act on the liver, kidneys and bowels gently yet thoroughly; to dispel headaches, colds and fevers; to cure constipation, indigestion and kindred ills.

Breast Up.
You are feeling depressed, your appetite is poor, you are bothered with head aches, you are fidgety, nervous, and generally out of sorts. See Dr. Pinninger, Reno, who is a skillful practitioner. Bring him, he is not with medicines, or bitters, which have for their basis very cheap, bad whisky, and which stimulate you for an hour, and leaves you in worse condition than before. What you want is an alternative that will purify your blood, stay heavy action of liver and kidneys, restore your vitality, and give renewed health and strength. Such a medicine you can find in Druggist Bitter and one 25 cents a bottle at S. J. Hodgkinson & Co's Drug Store.

The reason why Ack.
Ack's Blood Elixir is warranted, because it is the best Blood Preparation known. It will positively cure all Blood Diseases, purifies the whole system, and thoroughly builds up the constitution. Remember, we guarantee it.

W. PINNINGER, Druggist.

Old And reliable Medicines are
the best to depend upon. Ack's Blood Elixir has been prescribed for years for all Impurities of the Blood. In every form of Scrofulous, Syphilis or Mercurial Diseases it is invaluable. For Rheumatism, has no equal.

W. PINNINGER, Druggist.

Don't Trifl with any Throat or Lung Disease. If you have a Cough or Cold, or the children are threatened with Croup or Whooping Cough, use Ack's English Remedy and prevent further trouble. It is a positive cure, and we guarantee it. Price 10 and 50 cents.

W. PINNINGER, Druggist.

Wild Horses.

At a recent meeting of the Bombay Natural History Society, a paper was read by Mr. J. H. Steel on the subject of "Wild Horses," from which the following is taken:

Is there such a thing as a wild horse, an aboriginal or truly wild horse, in the world now? The answer is more than doubtful. The mustang in Mexico, the wild horse of the South American pampas, the brumby of Australia, are all descendants of domesticated animals introduced from Europe. The first horse was landed in America at Buenos Ayres in 1537. In 1580—that is, in less than fifty years—horses had spread to regions as remote as Patagonia. In

Australia the diffusion of horses that have escaped from civilization has been quite as rapid, and in 1875 it was found necessary to shoot as many as 7,000 wild horses in the colony of New South Wales alone.

In some parts of Australia the horse pest has received legislative notice. The wild horses tempt domesticated horses to join them, and wild stallions also invade the Australian horse runs and vitiate choice herds in a most annoying manner. They recur to the ancestral manners in a way that is always the same. Each stallion, Mr. Steele tells us, has his following of mares ranging from a few up to forty or even fifty, and these parties may be separate or banded together into herds of considerable size, even, it is said, 400 strong. The young and the weak males remain with a scanty or even no following. The stallion has to maintain his supremacy by frequent combats, which especially occur at certain seasons of the year. The animals are suspicious in the extreme, swift in flight, but bold in defense with tooth and heel in emergency. They range extensively in search of pasture and water, and when hard pressed by danger and famine the herds break up. It is said that each troop has a leader and implicitly obeys him. He is the first to face danger and to give the hint to fly. When pressed the horses form a ring with the mares and foals in the center, and defend themselves vigorously with their heels, or they close in on their opponent in dense masses and trample him to death. It is distinctly proved, then, that there can be no aboriginal or truly wild horse in either America or Australia, although there are tens of thousands of unowned horses. Tradition points to Central Asia as the aboriginal abode of the horse, and there the original stock of wild horses may still possibly exist. Darwin's statement that no aboriginal or truly wild horse is known to exist must still be held as explaining the exact position of this question, but, says Mr. Steele, we must supplement it by stating that "it is not certain that truly wild horses do not exist;" and, on the whole, Mr. Steele concludes that the evidence is in favor of the existence of the wild horse in Central Asia, but that we have no evidence as to his pedigree in relation to domestication. The wild horse of the British Islands is now practically the Shetland pony; but he is not the powerful animal described by Cesar. The domesticated animal everywhere, however, reverts very easily to the savage state, and of the wild horse so considered, Mr. Steele has much to tell us. His pace is a walk and a gallop. The double and the canter are artificial, and it is still a moot question as to whether the wild horse ever trots.

A Gift for All.

In order to give all a chance to test it, and thus be convinced of its wonderful curative powers, Dr. King's New Discovery for consumption, coughs and asthma will be sold at a nominal price of \$1.00 per bottle, and the action of liver and kidneys, restores your vitality, and give renewed health and strength. Such a medicine you can find in Druggist Bitter and one 25 cents a bottle at S. J. Hodgkinson & Co's Drug Store.

Give Them a Chance!

That is to say, your lungs. Also all your breathing machinery. Very wonderful machinery it is. Not only the larger air-passages, but the thou-and-some of little tubes and cavities leading from them.

When these are clogged and choked with matter which ought not be there your lungs cannot help do their work. And what they do, they cannot do well.

Call it cold, cough, croup, pneumonia, catarrh, consumption or any of the family of throat and nose and head and lung obstructions, all are bad. All ought to be got rid of. There is just one sure way to get rid of them. That is to take Boosey's German Syrup, which any druggist will sell you at 75 cents a bottle. Even if everything else has failed us, you may depend upon.

SIX-PAGE EDITION.

DESPITE all the money spent by New York State upon quarantine islands and quarantine hospitals and other elements required for quarantine, it turns out that this service is not to be relied upon for the effective isolation of a shipload of people coming to this port, says the New York Journal, with the most deadly and violent of known maladies. Any reckless wretch in a rowboat can make all the quarantine service useless. Communication that might have brought the cholera into this city or taken it to Brooklyn has, it is now admitted, been more or less carried on by the visits of people in rowboats, and the Health Officer only pleads that he has not enough men to establish a guard system that would make this impossible. If the Health Officer and the Quarantine Commissioners cannot make impossible any or all communication with the quarantine station, what is the use of quarantine?

Gould is still hungry. He wants to gobble Mr. Mackay's Commercial Cable and Postal Telegraph land lines. The New York Journal says: It is highly characteristic of Gould's methods, that eager watching of the effects of the disastrous wheat deal on Mackay's fortune to see whether he could not make a short cut through the Bonanza King's misfortunes to the attainment of his desires. As he scopped in poor old Cyrus Field on the Manhattan slump under the guise of helping him, Gould hoped to capture the Commercial cables through the failure of the wheat deal. The tightness for cash which sent Mr. Mackay to his old partner, Mr. Fair, did not, as the public has reason to rejoice, send the Bonanza King to Gould. Mackay is all right and the Commercial cable is still outside the monopoly.

In spite of the high wages paid to printers in New York there does not appear to be a supply of them to equal the demand. The morning newspapers who pay 50 cents per 1,000 ems under the new Union "scale" often find it difficult to fill all their "frames," particularly on Saturdays, when many "extras" are needed. In the book trade the scarcity of hands is not so great, but there cannot be any great excess even there, for with their excellent organization the printers are able to put up the price to 43 cents per 1,000 ems in spite of all opposition. This is the age of type and the types flourish.

The Yosemite Commissioners, who went to the valley for the purpose of inspecting the Stoneman house and formally accepting it from the contractors, have returned. They found that the contract had not been fully complied with, and until this is done—which may be November 1st—they will not accept the building in behalf of the people of California.

Work on the Stanford University is progressing rapidly.

A Texas Antimony Slinger Struck by Fortune.

A ROTHSCHILD MARRIED.

Items of Interest From all Quarters of the Globe.

[PRESS DISPATCHES TO THE GAZETTE.]

The Railroaders Fail to Agree.
CHICAGO, Oct. 20.—The Chicago Times says: The much-heralded transcontinental meeting ended in an inglorious fizzle, or, so to speak a trifle more accurately, it is adjourned subject to the call of the Chairman, with a slight hope that some time next month the lines may be brought together again. The committee to which was entrusted the task of arranging a plan for the basis of an organization, discovered after several protracted sessions, that harmonious organization was altogether out of the question. There are many disturbing elements. The absence of the Texas Pacific was a decided factor; then again the Central Pacific, an uncontrolled and aggressive line, demoralizing and disorganizing all through rates, left the American lines with a hope of securing a truce in that direction, and the representatives present realizing all this, came to the conclusion that the movement toward organization was ill-timed. The better thing to do was to let the matter drop until the occasion should prove more propitious.

A Fire Bug Caught.

NEW YORK, Oct. 20.—Franz Mikhoff, a member of the Anarchist Club who has been making a living by setting fire to property for the purpose of getting the insurance money, was found guilty of that offense in the General Sessions Court yesterday. Mikhoff, leader of the gang, named Sharf, escaped, and it was stated that he has for several years made a business of setting fire to houses on commission for owners who desired to get the insurance money.

A Southern Pacific Train Wrecked.

SAN FRANCISCO, Oct. 19.—Assistant Superintendent Pratt, of the S.P.R.R., has received information of the wrecking of a freight train to-day near Kene, 13 miles south of Tehachapi. Brakeman Seek was injured, but the rest of the train hands escaped unharmed. The cause of the accident is supposed to have been a broken rail. The Los Angeles local for this city and the Sunset express are both delayed.

Church Congresses.

LOUISVILLE, Oct. 20.—The second day's session of Protestant Episcopal Church Congress opened with a largely increased attendance. Bishop Dred read the opening prayer. The topic discussed in the day session was: Higher education of women.

The Universal Congress was called to order in New York yesterday. Representatives from all parts of the country were present.

A Brilliant Wedding.

PARIS, Oct. 20.—The wedding to-day of Albert Edward Sasson and Alice de Rothschild, at the synagogue on Rue Victoire was a brilliant affair; 4,000 invitations were issued.

The Diplomatic Corps was largely represented. Baron Gustave de Rothschild gave away his daughter. The bridal party numbered 150 and included many members of the Rothschild family.

We Stand Amazed.

LONDON, Oct. 20.—The Times says: It is a fact beyond question that Gladstone's oratorical performance beats the record of all statesmen who ever attempted to govern a country by the gift of speech. We stand amazed at the fecundity of language and physical endurance displayed by a man completing 78 years. In substance, however, his speech is deplorable.

The Seal Fisheries.

OTTAWA, Oct. 19.—A dispatch from Secretary Bayard to the Imperial Government has been received here, in which Bayard expressed regrets that orders for the release of the Canadian sealers had not been given. Barking Seals were not obeyed by the officials at Sitka, and stating that fresh orders had been given.

Joe Smith's Thrifty Followers.

OTTAWA, Oct. 19.—Advices received here indicate that the Mormon colony that settled at Lee's Creek at Lethbridge, N. W. T., is in a prosperous state. A recent visitor there states that the followers of Joe Smith have made more progress in three months than other settlers have in three years.

Will Settle Religious Discord.

LONDON, Oct. 20.—Gladstone received an address from the Irish residents of Nottingham to-day. Replying to the address, he expressed the conviction that the discord between the Catholics and Protestants would cease when home rule was established in Ireland.

A Printer Finds a Fortune.

WACO, Tex., Oct. 20.—Jas. E. Hamilton, a printer of this city, has fallen into an estate amounting to \$3,000,000. He is nephew of Horatio J. Hamilton, a rich miner of Oroville, Butte County, Cal., who died last April, leaving no heirs. Hamilton stands for Oroville next week.

A Bucket Shop Restrained.

CHICAGO, Oct. 20.—Judge Collins this morning refused to dissolve the injunction obtained by the bucket shop against the Board of Trade, restraining the Board from calling off quotations.

A Blaze in Wisconsin.

MARIETTE, Wis., Oct. 20.—Three blocks in the business portion of this city, comprising forty buildings, were destroyed by an incendiary fire, which broke out at 1 o'clock this morning. Loss estimated at \$200,000; insurance light.

A Britisher "Lives" 80,000 Pounds.

LONDON, Oct. 19.—Fairbanks, a stock broker of this city, has absconded. Liabilities, £30,000.

The President in Alabama.
MONTGOMERY, Oct. 20.—President Cleveland arrived here at 8 o'clock this morning. The streets from the station to the hotel, nearly half a mile, were lined by troops, who kept a wide avenue.

A Murderous Carpenter.

COPENHAGEN, Oct. 20.—The Russian schooner Johannes was towed into this port to-day. On the voyage the carpenter murdered the Captain and five of the crew and threw their bodies overboard.

A Lucky Barkeeper.

THE VIRGINIA CHRONICLE says: Louis Metzger, agent for the Little Louisiana Lottery in San Francisco, arrived this morning. The sum of \$7,500 won by Andrew Subotich in the last drawing on ticket No. 13,646 was paid over to the lucky holder of the two 25-cent coupons this afternoon, and will be on exhibition to-morrow from 11 o'clock A. M. to 2 o'clock P. M., all in bright twenty-dollar pieces on the bar of the Sazerac saloon, where Mr. Subotich will be pleased to welcome his numerous acquaintances.

The map includes the town of Wadsworth, a portion of the C. P. R. R., and gives the windings of the Truckee river with the location of the various ranches along its banks, with the names of the occupiers, both whites and Indians, with the outlines of Pyramid and Mud Lakes, the various mountains and the numerous wagon roads, with more truthfulness than most official maps.

There is no diminution in Reno's building boom.

Fred Hagerman, son of General Hagerman, is confined to his bed with an attack of pleuro-pneumonia.

The volume of water in the Truckee river is perceptibly increasing every day.

W. M. Russell, advance agent for Morris Sullivan's "Mirror of Ireland," called on our office to-day.

M. Nathan won \$100 in the Louisiana lottery at the last drawing, or the tenth part of a \$1,000 prize.

Mrs. Sarah E. Winters, sister-in-law of Theodore Winters, died at Fresno a few days ago. The remains were taken to Colusa for burial.

M. W. Russel, advance agent for Morris Sullivan's "Mirror of Ireland," called on our office to-day.

J. S. Tolles, who has been a resident of Washoe county for twenty-five years, has disposed of his interests in this vicinity and will locate in Butte county, Cal. He left in a private conveyance for his new home to-day, his wife and daughter going in the cars.

Carson Tribune: "Warden McCullough brought from the State Prison the frontal part of a rhinoceros skull, found on the grounds of Sunday, and his propose to go after the whole remains." Is going contingent on the hole remaining?

A mysterious disease, fatal alike to hogs, cattle and horses, prevails on a few stock farms in the neighborhood of Davisville, California. The symptoms are swelling of the throat and head, the animal dying of suffocation in the course of ten or twelve hours. No certain remedy has been found.

Elko Independent: "For the first time in the history of America, a Mayor has given birth to a son." Argonia, Kansas, is the city entitled to the record, and the lady who governs the city has the honor of helping to increase the city's population. It is not at all an uncommon thing for mares to have sons born in their liaison to London, and that the affairs of Hawaii would soon emerge from their present lethargic state and add to the prosperity prevail. He was very reticent concerning the recent political situation in Honolulu, but he thought the summary action of the citizens was uncalled for and the decapitation of Premier Gibson unjust, as that gentleman is not so black as he has been painted of late.

An Embassador's Return.

George W. Macfarlane, a prominent financier of Honolulu, who was commissioned to float a \$2,000,000 loan of the Hawaiian Kingdom in London, passed through last night, and will leave on the Marquis for the islands to-day. To a *Gazette* reporter Mr. Macfarlane said he had met with unexpected success in his mission to London, and that the affairs of Hawaii would soon emerge from their present lethargic state and add to the prosperity prevail. He was very reticent concerning the recent political situation in Honolulu, but he thought the summary action of the citizens was uncalled for and the decapitation of Premier Gibson unjust, as that gentleman is not so black as he has been painted of late.

Painted Indian.

John O'Kane reports to the *Silver State* that the boom has reached Big Meadows. Land is in brisk demand, and farms held at good prices, having advanced 100 per cent. in a year. Hay and grain were nearly all sold as soon as harvested. Beef cattle are being driven there from all directions, and over 4,000 head will be fed there this winter. The potato crop has not yet been harvested. It is expected that the crop will exceed a thousand tons, and it finds a ready market in California. A new irrigating canal is under construction, and another of considerable magnitude is contemplated. S. R. Young is building a fine brick store-house, the brick for which were burned on the ground.

Make No Mistake.

By dispelling the symptoms so often mistaken for consumption, SANTA ABIE has brought gladness to many a household.

It is prompt use for breaking up the cold that often develops into that fatal disease, thousands can be saved from an untimely grave.

You make no mistake by keeping a bottle of this pleasant remedy in your house. CALIFORNIA-CAT-CURE is equally effective in eradicating all traces of Nasal Catarrh. Both of these wonderful California remedies are sold and warranted by Osburn & Shoemaker, wholesale and retail agents. \$1.00 a package, 3 for \$2.50.

A Sad Accident.

The San Francisco Bulletin: Geo. G. Moses, a young man employed in H. S. Crooks & Co.'s stationery establishment on Bush street, was using the sidewalk elevator yesterday morning, when his head was caught between the sidewalk and the ascending elevator and so badly crushed that he died in the afternoon at his home, 1507 California street. Young Moses was a bright youth, nineteen years of age, and was employed by Crocker & Co. as a stock clerk. His father is clerk for Ira G. Holt, State Superintendent of Public Instruction at Sacramento.

Happiness and Health.

Are important problems, the former depending greatly on the latter.

Everyone is familiar with the healthy properties of fruit, and no one can afford to be sick and miserable while the pleasant California concentrated liquid fruit remedy, Syrup of Figs, may be had of our enterprising druggist, Wm. Pinniger, Reno, Nev.

A Decided Success.

The Enterprise says the new system of running mills by transmitted power as applied to the California mill is an assured success.

It is a decided success. The mill has been running on this power for weeks. It works to a charm. There is not a flaw in the entire system.

The wire ropes run dead center on every one of the grooved wheels.

There is no trouble experienced whatever about taking up the slack wire. The man under who is in immediate charge every part of the system of transmission of energy is a god among mechanics, and that's all there is about it. The work is not propped by assurance, but by facts.

It is a decided success. The mill has been running on this power for weeks. It works to a charm. There is not a flaw in the entire system.

A Sinful City.

The Carson Appeal says: "A local physician informed the writer that he believed there are over 50 children in this city under 13 years of age whose persons had been violated by men. The Appeal has no desire to prejudice the case of Campbell, who is in the hands of the law, but nothing less than a lynching will keep rascals from ruining children of ten years."

Would not Carson be a good field for Rev. Mr. Chubbuck, who has been waging a relentless war in the past week against vices generally, and this sin particularly?

Bullets.

From yesterday's *Silver State* we borrow:

The Perfection.

There are forty-four carloads of beef cattle here awaiting shipment to San Francisco.

Colonel Hardie is driving about 3,000 head of steers from his Quinn River and Oregon ranches to Cottonwood, California, where they will be fattened for market.

Barney Horn shipped nine carloads of fat beef from Iron Point yesterday, and nine carloads shipped from Wells by Hayes, Carlock & Co., remained over here to feed.

Sealed to Death.

At dispute from Pioche, Lincoln county says: Yesterday afternoon the three-year-old child of James Rice, of Spring Valley, being left alone for a few minutes in a room where stood a vessel of boiling water, fell into the water, and when taken out was found to be frightfully scalded. The child died

at the age of 10 years.

The Father of Many Ills.

Constipation leads to a multitude of physical troubles. It is generally the result of carelessness or indifference to the simplest rule of health. Eugene McKay, of Brantford, Ont., writes:

Heart disease is developed by modern civilization, and is increasing to an alarming extent. Let him who suffers from this disease take this remedy at once—it will cure you. \$1.50.

I had for several years been a sufferer from constipation, had taken a great many different remedies, some of which did me good for a time, but only for a time, then my trouble came back worse than ever. I was induced by a friend whom Bradreth's Pills had benefited, to try them. I did so, taking two pills at a time, and one every night for about six weeks. Since that time I have not experienced the slightest difficulty whatever, and my bowels move regularly every day. I believe firmly that for sluggishness of the bowels and bilitylessness Bradreth's Pills are far superior to any other.

CONTRACT FOR SUPPLYING SAN FRANCISCO SCHOOLS LATELY AWARDED TO THE "AUTOMATIC."

THE "AUTOMATIC" AS COMPARED WITH OTHER SEATS. The illustrations show the great superiority of the rear-folding seat over all others in durability, economy of space, and tendency to induce a healthy position. The cuts were made from photographs of the desks themselves, and are, therefore, perfectly accurate.

From photograph of the Automatic Rear-folding Seat; in use over five years. The Automatic Seat, being supported in front, can NEVER sag, and the seats fold as the pupils rise, and remain folded and out of the way until they take their seats again, the desks are set much nearer together. The above are set the right distance apart, securing an EASY, GRACEFUL and HEALTHFUL POSITION of the pupil.

From photograph of the best (?) Hinged-Seat Desk; in use less than five years. One great objection to hinged seats is that they wear so as to become noisy in folding, and sag, as the above, becoming uncomfortable, or totally unfit for use. The above desks are set the "regulation" distance apart, which distance, together with the sag of the seat, induces the AWKWARD and UNHEALTHFUL POSITION of the pupil.

ON THESE LOTS THE COMPANY WILL

BUILD

One \$15,000 hotel,

One \$5,000 store and hall,

One \$2,500 dwelling,

One \$2,000 dwelling,

Two \$1,500 residences,

Two \$1,000 residences,

Four \$875 residences,

And will sell you a certificate entitling you to a lot for \$360, which you can pay \$30 in cash, and \$15 per month without interest until \$150 is paid.

When the 500 certificates are sold, and \$150 paid on each, the company will notify all purchasers to assemble in Orovile on a day named, and will then let the purchasers select a committee from among themselves. The company will then furnish this committee with a map showing the 500 lots, a 200 and 500 marbles, each marble containing the name of a purchaser.

The marbles will be put in the box, and after being well shaken, drawn therefrom by a blindfold boy or girl. The person whose name is on the first marble drawn can then step to the map and take the hotel or whatever lot he or she chooses, the next name such building and lot as desired, and so on until the 500 lots are taken.

The smallest lot will be \$0x150,

which lots are now selling for \$250 and \$200 each, and are located around the hotel and buildings.

By the time these improvements are made, these lots will be well worth more than the \$360 invested.

EMPLOYMENT FOR LABORERS.

Parties desiring to obtain homes in Thermalito, who have but little money, will be furnished employment at one-third cash and two-thirds applied on lots, a small cash payment only being required.

The company will also plant your land in fruit trees and care for the same for one year at actual cost, thus giving employment to laborers.

REAL WORTH.

When the real worth and beauty of this tract is known and its favorable surroundings taken into account, it will sell well with improvements at the highest fruit land prices. Judging from the history and results of adjoining places, there can be no question about the rapid growth and success of Thermalito.

The following extracts from recent conversations may interest our readers:

Said a Boston banker, "Yes, I am much pleased with the beauties of Butte county, which, together with its mild and healthful climate, have charmed me into purchasing a pleasant and lovely spot where I can find rest for myself and family a month or two each year, free from the bitter cold weather we have back in the States. I have never seen such a lovely place.

It is to my mind a paradise, no less attractive than the one our parent, Adam, left. I have been going over the lands here and carefully studying the situation, and am convinced your people will see an advance in your lands from present prices of \$30 and \$100 per acre, to prices now obtained in Lower California.

"In this connection I would say:

Thermalito presents the greatest opportunities for immediate profits. I predict that the lands now selling there

at \$100 per acre will be sought after

next year at \$200 to \$300, in 1889 at

\$400, and in 1890 at \$500. I make

this statement after years of close ob-

servation of prices of real estate in

different localities. No one familiar

with the producing capacity of such

lands will say that \$400 to \$500 is too

high a price. I see in Thermalito two

possibilities. First, exceptional op-

portunities to make money, and sec-

ond, beautiful homes, surrounded

by every variety of fruit and flowers

and splendid climate.

"I mean to avail myself of these pos-

sibilities, and you can see me down as

a citizen a great part of each year."

Said Col. U. C. Crook (S. P. R. R. Co.)

"I think this whole region a

marvel. It is a perpetual surprise to

me—not the least of which is that

there remains to-day a single acre of

land in this whole valley unoccupied.

While the surpassing excellence of the

Oroville exhibit at Chicago stamped

the whole region unrivaled for fruit

growing, I still had no adequate con-

cognition of the beauty and possibil-

ties of the place."

"I know of no other place in the

State which presents so many induc-

ments to parties seeking homes as

Thermalito. The land is beautiful

for situation, it is to be abundantly

watered, and best of all, is now sell-

ing at prices within the reach of all.

I advise all new comers to examine

these lands before purchasing else-

where, they will double in value

within twelve months. I have it

from the best authority that a fine

hotel, a banking house and stores,

and other substantial improvements will

be made there this fall, and I believe

land will be sold by the front foot on

the bluff overlooking Feather river."

OPPORTUNITIES.

What has been accomplished at

other places will be repeated here.

All things considered, Thermalito

offers rare opportunities now for pay-

ing investments, and for pleasant and

healthful homes. For maps, etc., ad-
